

LAKEWOOD TOWNSHIP
MUNICIPAL UTILITIES AUTHORITY

To whom it may concern,

We here at the Lakewood M.U.A has been working with North American Pipeline Services for some 20 years now. We use both their pipe cleaning service and their televising service. And in the future we expect to be using their pipe lining and manhole rehabilitation system as well.

Their truck operators are well educated in the field, and go over and beyond their normal duties to make sure the job is done right.

All the equipment they use is up to date and current with today's technology.

I would recommend North American Pipeline Services to anyone in need of any of the above mentioned services.

Feel free to contract me with any questions at (732) 557-1755

Sincerely

Harry Robbins

NJDEP, licensed C-3 Operator
