To Whom It May Concern,

This letter is in regards to North American Pipeline, LLC (NAP). I had subcontracted NAP in June of last year and have been working with them on my current project to date. They provided us with excellent pipe cleaning services and pre and post videos of multiple sized reinforced concrete pipes. The pipe sizes they had worked with on this job ranged from 18" to our largest 101"x160" elliptical pipe running underneath the Garden State Parkway. The quality of the work was top notch and performed with the essence of time in mind. The company and staff were overly helpful with any paperwork, payroll requests, and all pipe videos were personally dropped off to me. I would highly recommend them for further pipe cleaning work. Please feel free to contact me directly if there are any questions.

Regards,

John Paul Loeb
