Mr. Tom Mullen
Managing Member
North American Pipeline Services LLC
210 Bennett Road
Freehold, NJ 07728

To Whom It May Concern:

I am writing this letter to recommend the services of North American Pipe Services, LLC. During the past four years our company has been working with North American Pipe Services, LLC on various private and municipal projects. Your company has provided video inspection, sewer cleaning, lateral grouting, joint grouting, lateral connection repairs and excavation services on a scheduled and/or emergency basis.

The video inspection, cleaning and lateral services provided by your company on a job to job basis afforded us vital information which assisted in the execution of our work. Your work enabled us to perform our work as quickly and efficiently as possible with minimal sewer mainline downtime. The excavation project that your company completed was the solution to a difficult problem that was a major concern to us and the owner. Your company addressed the issue with extreme diligence, from an intelligent perspective, on short notice and was well received by the municipality.

Your crews were professional, organized, well informed and courteous to our customers. North American Pipe Services, LLC. has always provided our company with high quality work, on time and dependable service and in our opinion is rated second to none. We are glad to have such a partner within the environmental industry that we can depend on for premier quality service.

If anyone wishes to contact me regarding the quality of your service please have them call me on my cell at 973-418-3160.

Thanks again for your help.

Michael Dello
General Manager
